

AIME 2026

24th International Conference
on Artificial Intelligence in Medicine
OTTAWA, CANADA

July 7-10
2026

Sponsorship Opportunities

Conference Sponsorship Opportunities

We are delighted to announce the 24th International Conference on **Artificial Intelligence in Medicine (AIME 2026)**, to be held **July 7 – 10, 2026**, at the University of Ottawa, Canada.

AIME 2026 is hosted by the Telfer School of Management, uniting researchers, clinicians, and innovators to advance AI methods and applications across biomedicine and healthcare.

On behalf of the AIME 2026 Organization Committee and the Society for Artificial Intelligence in Medicine, we invite you to join us in Ottawa, Canada, for the premier conference at the intersection of AI and medicine.

AIME 2026 will explore groundbreaking research, cutting-edge applications, and visionary insights from academia and industry.

We value you as a sponsor and partner and are dedicated to making your support for our world-class conference and scholarly society a rewarding and impactful promotional event.

Please consider partnering with us in this unique opportunity. For more information on sponsorship opportunities, contact local organization chairs:

Pavel Andreev at pandreev@uOttawa.ca

Antoine Saure at asaure@uOttawa.ca

Thank you for your time and consideration.

About AIME

The International Conference on Artificial Intelligence in Medicine (AIME) has served as a foundational gathering for the global AI-in-health community for over 40 years. The conference series began in Pavia, Italy, in 1985, and shortly after, in 1986, the Society for Artificial Intelligence in Medicine was formally established. Its goals remain deeply relevant today:

- to foster both fundamental and applied research on the use of artificial intelligence in medical care and biomedical science, and
- to provide a recurring international forum for the presentation, discussion, and dissemination of significant scientific results.

AIME is more than a conference series; it has become a collaborative tradition uniting clinicians, computer scientists, biomedical researchers, and health system leaders to advance intelligent systems in healthcare. The AIME community is committed to scientific excellence, clinical relevance, and ethical responsibility, fostering open dialogue and lasting relationships. Over the years, AIME has significantly influenced the field, evolving from expert systems to modern machine learning and real-world applications. Each edition continues this legacy while addressing new opportunities and challenges at the intersection of artificial intelligence and medicine.

Now celebrating its 41st year, AIME 2026 marks the 24th edition of this prestigious event. Hosted at the University of Ottawa, AIME 2026 will bring the global community together once again to reflect, connect, and look forward to the future of AI in medicine. The conference will offer a unique opportunity to engage with global leaders, present transformative research, and shape the future of AI in medicine.

Sponsorship Timeline

Once agreed and committed, sponsors will work with the AIME organization team to create a unique conference sponsor experience. The following timeline outlines when each step of the process will take place.

Immediately

- The logo is added to the conference website.

Late May

- AIME staff will request all content and media (e.g., email messaging, social media messages).*

June

- Sponsors will be provided with complimentary registration codes.

During the Conference

- AIME staff will check in with sponsors periodically.

September 2026

- AIME staff will follow up with all sponsors to provide an overall fulfillment report.

* If a sponsor fails to provide the content or materials required for their purchased sponsorship opportunities (e.g., social media messages, email content, or other deliverables) by the specified deadline, the event organizer is not responsible for creating or fulfilling these deliverables. The organizer will not be held liable for any missed promotional opportunities resulting from the sponsor's failure to provide the necessary materials.
